PROJECTS

To-Do Application:

Built a full-stack To-Do application using React, Node.js, Express, and MongoDB for efficient task management. Resolved API integration and dynamic state update issues using Axios and React hooks. Delivered a smooth, responsive app with real-time task updates.

E-Commerce Website:

Built a full-stack e-commerce website with secure authentication and cart functionality. Resolved challenges in authentication, cart management, and responsive design using JWT, state management, and Tailwind/Bootstrap. Delivered a smooth shopping experience with secure login and intuitive UI.

AI Finance Advisor:

Built an AI-powered finance advisory web app that generates financial plans based on user inputs like income, savings, and goals. Implemented efficient API handling, state management, and bilingual support (English/Hindi). Designed a clean, responsive UI for a smooth user experience.
